

To our valued patients,

The team at EarTech Hearing Aids knows there are well found concerns related to the spread of the Coronavirus (COVID-19). We are working to establish precautions to keep a safe environment for you and your family.

Here is what we are currently doing to help prevent the spread of COVID-19:

1. Sick team members are directed to stay home.
2. We are kindly asking ALL patients to wash their hands when arriving at the office.
3. Alcohol- based sanitizer is located in our common spaces; our team will be sanitizing shared surfaces, doorknobs, faucets, pens, exam rooms, shared testing equipment before and after each patient is seen.

Here's how you can help:

1. Stay at home if you're sick.
2. Wash your hands for at least 20 seconds.
3. Use tissues in the restroom only; wash your hands after use. Should you need to cough or sneeze, please do so into your sleeve and sanitize after.

We also believe that education is the best prevention. Here is a link to the World Health Organization's website: <https://www.who.int/health-topics/coronavirus>

We are still here for all of your hearing needs, and we want to inform you on our efforts to make your experience as wonderful as it always has been.

Stay safe (and wash your hands!)

Your friends at,

EarTech Hearing Aids
